EDUCATION

Southeastern Louisiana University   **Hammond, LA**
Bachelor of Science, Computer Science

WORK EXPERIENCE

DXC Technology (eLabs)   **New Orleans, LA**
.Net Developer   *May 2022 to present*

- Led the migration of legacy applications to modern platforms, resulting in enhanced functionality and improved user experience.
- Successfully addressed critical bugs and integrated new features into existing applications, enhancing overall performance.
- Played a key role in the planning and development of new applications, with a focus on hosting on IIS servers.
- Orchestrated the deployment of Windows services and web services within the Windows Server environment.
- Guided and mentored team members through all phases of the development lifecycle, from initial planning to deployment.

Anheuser-Busch (Contractor)   **St. Louis, MO**
Jr. .Net Developer   *Mar 2022 to April 2022*

- Providing escalated application support for North America Zone breweries and other entities on a 24/7 basis.
- Assisting with application support activities such as troubleshooting, root cause analysis, and debugging in a manufacturing environment.
- Collaborating on tasks related to the ongoing management and maintenance of relational databases in MES and process control applications.
- Leading new application development or major enhancements of existing applications across all ABI operating departments.
- Staying up-to-date with new technology and utilizing a data-driven approach to solve business and operational problems.

DXC Technology   **New Orleans, LA**
Application Developer   *Jan 2022 to Present*

- Collaborated with the design team to develop UI using Angular.
- Created thorough documentation for work assignments, including program code and technical documentation.
- Utilized JIRA to track tasks and updates.
- Efficiently gathered and analyzed program and time requirements, and prepared documentation for program changes.
- Utilized Azure Cognitive Services, including the Text Analytics API, to analyze and extract insights from large volumes of talent application data for a talent research project.
- Demonstrated proficiency in using Azure Databricks for data preparation, data cleansing, and data wrangling tasks.

SilverBay Consulting LLC   **Houston, TX**
Software Developer   *May 2021 to August 2021*

- Designed and developed a user interface for a public web application using Visual Studio 2019, ASP.NET/ASP .Net Core, C#.NET, Bootstrap, HTML, and JavaScript.
- Participated in bug fixing and provided support for a client-facing application.
- Contributed to new features and modules for existing web apps using ASP.NET, Angular, and Entity Framework.

- Used Agile/Scrum methodology during 80% of the project life cycle.
- Utilized Azure CI/CD pipelines for code integration and code deployment.

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900), Microsoft, December 2022
- Microsoft Certified: Azure Data Fundamentals (DP-900), Microsoft, February 2023
- Microsoft Certified: Azure AI Fundamentals (AI-900), Microsoft, November 2024

SKILLS & INTERESTS

Technical Skills:

- Programming Languages: C#, Python, TypeScript, Java, JavaScript
- Web Technologies: ASP.NET, .NET, React, NextJs, Angular, Ionic, Spring Boot
- Mobile Technologies: React Native
- Databases: SQL Server, NoSQL(MongoDB), Sybase, Oracle
- Cloud Technologies: Azure
- Server: Windows Server

Interests: Travel, volunteering, community involvement, language learning, music, and gaming.
